ACADEMIC PROJECTS

- *Expense Analysis*

Expense Analysis Web Application

Developed a web-based application to manage personal and business finances by tracking daily income, expenses, and transactions. Implemented features for budget planning, bill management, financial goal setting. Designed interactive dashboards and real-time data visualizations for insightful expense and income analysis. Integrated smart suggestions, reminders, and category-wise breakdowns to enhance user decision-making. Focused on delivering an intuitive, organized, and data-driven financial management solution.
